SmartStacks®

THE BIGGEST
BREAKTHROUGH
IN DRAYAGE SINCE
THE CONTAINER

Volume vs Dwell

Benefits for Drivers

- Average dwell in the terminal: 38 minutes
- Multiple turns
- No appointments
- Parachute destination option

Benefits for Customers

- Fastest way to access your freight
- No demurrage
- Empty return
- Optimal chassis utilization
- Container depot space

Benefits for the Terminal

- Eliminate unproductive lifts
- Traffic flow
- Terminal dwell: average 2.06 days
- Volume: average per week 2,125 containers

Benefits for the Environment

- Idle time in the port reduced by 67%
- Every 2,000 containers moved via SmartStack saves 2,400 gallons of diesel.
- Every 2,000 containers moved via SmartStack saves 24.4 metric tons of CO₂.
